Deputy Headteacher for Inclusion: Ms Italia Simeone

7.12.2020

Dear Parents,

I am sorry to inform you that we have been made aware this morning that two teachers have tested positive for the COVID-19 virus at the weekend. One of them is the teacher of the class already in isolation and the other is the teacher of class 25 who almost certainly contracted it outside the school . This brings the total number of cases in the school since March to three, but they are all current.

Two classes :19 (year 5) and 25 (year 1) are therefore in self-isolation.

Due to the nature of track and trace a large number of staff also have to self-isolate for 14 days although they are all well. Some classes will need to be covered by temporary staff as a result.

We know that you may find this worrying, but we are continuing to monitor the situation and are working closely with Public Health England.

This letter is to inform you of the current situation and provides advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

The small number of children who have been in close contact with the individual who has tested positive for coronavirus (COVID-19) i.e. the class -have received a letter informing them that their child must stay at home for 14 days from last contact with the child.

The school remains open for all other children and your child should continue to attend as normal as they remain well.

What to do if your child develops symptoms of COVID 19

If your child develops symptoms of COVID-19, they must not come to school and should remain at home for at least **10 days** from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via https://www.nhs.uk/ask-for-accoronavirus-test or by calling 119.

All other household members who remain well, must stay at home and not leave the house for 14 days. This includes anyone in your 'Support Bubble'.

Further information is available at: https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection

The 14-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home.

If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community

If you are able, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.

Symptoms

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- a new continuous cough
- a high temperature
- a loss of, or change in, your normal sense of taste or smell (anosmia)

For most people, coronavirus (COVID-19) will be a mild illness.

If your child does develop symptoms, you can seek advice from the nhs.uk website at https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/. If you are concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at https://111.nhs.uk/ or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

Do

- wash your hands with soap and water often do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further Information

Further information is available at https://www.nhs.uk/conditions/coronavirus-covid-19/

The school remains open and your child should continue to attend as normal if they remain well.

The school has arranged a deep clean of the relevant classrooms and we have arranged for work to be sent home so that learning can continue.

Yours sincerely Craig Voller, Headteacher
