

Year 1

Seasonal change

We are learning about:

- **changes associated with Autumn** (observe changes across the four seasons. Observe and describe weather associated with the season and how day length varies)

We are learning to:

- **ask questions in science lessons** (to be able to ask simple questions and recognise that they can be answered in different ways)
- **observe** (to be able to identify objects)
- **collect information** (to be able to gather and record data to help answer a question)
